Faculty of Education & Liberal Studies

About Faculty

We develop individuals with language proficiency and communication skills in the field of education, public relations, advertising and a broad range of communication programmes. Diving into the field between academic and experiential learning helps to curve their learning outcome as the essential for work, citizenship and life.

Education studies is concerned with understanding how people develop and learn throughout their lives, the nature of knowledge and critical awareness. It offers intellectually rigorous analysis of educational processes, systems and approaches.
