

FKIP (Faculty of Teacher Training and Education)

VISION

In 2035, to become a leading and globally competitive faculty in the development of science and technology in the field of teaching and educational science that is oriented towards strengthening character and entrepreneurship.

MISSION

1. Organizing superior education and teaching programs to produce graduates with global insight by utilizing information and communication technology.
2. Conducting educational research oriented towards strengthening concepts and improving educational practices; and disseminating and publishing it at the local, national, and international levels.
3. Organizing community service programs based on research and community needs by providing training and educational services to improve the quality of sustainable education.
4. Developing strategic networks and collaborations with various parties, both at local, national and international levels, to improve the quality of education

OBJECTIVE
