Discover UTM-CIAM

UTM Centre for Industrial and Applied Mathematics (UTM-CIAM) is a research centre anchored to the Department of Mathematical Sciences, Universiti Teknologi Malaysia. Established on 12 December 2012 at St. Anne's College, University of Oxford, in the presence of the Malaysian Minister for Higher Education, the centre marks a significant milestone in Malaysia's development of industrial mathematics and advances the use of mathematical sciences in solving industrial and societal challenges.

Working closely with the department, UTM-CIAM promotes interdisciplinary research, consultancy, innovation, and postgraduate training in modelling, optimisation, analytics, and computational methods. It also builds strong collaborations with global and regional partners such as the Oxford Centre for Industrial and Applied Mathematics (OCIAM), the Asia Pacific Consortium of Mathematics for Industry (APCFMI), universities, industries, and research institutes.

For more information, visit our official website at https://research.utm.my/ciam/

Mathematics Computer Labs

Our computer laboratories are designed to enhance the learning and research experience for students and faculty members in the Department of Mathematical Sciences and other users.

ISMI2026: International Seminar on Mathematics in Industry
2-3 SEPTEMBER 2026, WEDS-THURS
JOHOR BAHRU, JOHOR
MAIN ORGANISERS: DEPARTMENT OF MATHEMATICAL SCIENCES, FACULTY OF SCIENCE & UTM- CENTRE FOR INDUSTRIAL AND APPLIED MATHEMATICS. Read More

WORKSHOP: DATA ANALYSIS USING EXCEL
1-2 MARCH 2023, WEDS-THURSDAY
MATHEMATICS COMPUTER LAB 1, BLOCK G22, UTM JOHOR BAHRU
ORGANISED BY: DEPARTMENT OF MATHEMATICAL SCIENCES, FACULTY OF SCIENCE Click Here
