

Engineering Design, Manufacturing and Management Systems

Learn in a lab

When you enroll in our experience-driven program you will gain the knowledge and practical skills to succeed in engineering organizations.

[Apply now](#)

[Explore academics](#)

If finding the intersection of engineering concepts and practical application sparks your creativity, consider studying engineering design technology or manufacturing engineering technology--you will be uniquely ready to enter diverse industries in many areas of engineering--aerospace, electrical, mechanical and more.

Find your success

The Department of Engineering Design, Manufacturing and Management Systems offers three undergraduate degrees, one master's degree and one doctoral degree. Graduates from our programs are employed in a wide variety of positions in both manufacturing and service industries. Several departmental minors are offered in plastics, automotive, cast metals and manufacturing. Students may also take other approved minors.

“ I've had multiple internships since I've been here, and I feel like wherever I end up, as long as I find my niche, I'll be set. ”

—John Goheen, B.S.'23, manufacturing engineering technology grad and aerospace process engineer

Floyd Hall—home of the College of Engineering and Applied Sciences—has the resources for your success. Whether you are looking for career advice, help with classes or advising or want to meet a group of Bronco engineers, you have access to opportunities to fill your needs.
