

FACULTY OF MEDICINE AND HEALTH SCIENCES

DEPARTMENT » Department of Human Anatomy

## Department of Human Anatomy

Department of Human Anatomy was initially the Anatomy Unit in the Department of Biomedical Sciences. Since year 2005, the Anatomy Unit was established and became the Department of Human Anatomy to cater the preclinical teaching for the Medical Doctor Program. In addition, the department also play a pivotal role in research and clinical science teaching for the Biomedical Science Program, Nutrition Program, Dietetic Program and Nursing Program. The department consists of three main academic unit which is Anatomy Unit, Physiology Unit and Pharmacology Unit. The core mission is to provide knowledge and educate the post graduation students, under graduation student, professional workers and public. The department encourage involvement from all level in understanding human anatomy by providing education material, research, workshop and edu tourism.
