

Leading through Learning

SEAMEO aims to uplift the quality of education, science, culture and to promote sustainable human resources for a better quality of life in Southeast Asia through enhancing understanding and cooperation, providing a platform for policy dialogues, and promoting program excellence.

Education in Southeast Asia

Addressing the Learning Crisis Through Context-Specific Solutions

Southeast Asia is grappling with a profound learning crisis, one that has revealed alarming educational gaps across the region. According to the 2019 SEA-PLM report, 7 out of 10 Grade-5 students in So...
